

## AUTIMS API

User	Actions	Example URL	Parameters
Therapist	Therapist registration		<ul style="list-style-type: none"> <li>• therapist_id</li> <li>• name, email, phone_no, workplace, address, gender: string</li> <li>• specialisation: array</li> <li>• password</li> <li>• img_url (not compulsory on registration) : string</li> </ul>
	View profile, Edit profile	/profile?therapist_id=2, /profile/edit?therapist_id=2	As above
	All patients	/patients?therapist_id=2	
	Create patient, Edit patient	/add_patient?therapist_id=2, /edit_patient?therapist_id=2& patient_id=4	<ul style="list-style-type: none"> <li>• patient_id</li> <li>• name, age, gender, diagnosis, summary, parent_name, parent_email, parent_phone, relationship : string</li> <li>• created_at: date</li> <li>• parent_verified: boolean</li> <li>• is_deleted: boolean</li> </ul>
	Delete patient		Doesn't delete patient from database, sets is_deleted parameter to true so therapist no longer has access to the patient. However the parents will still be able to view the records of the therapist regarding the patient
	Session reports per patient	/session_reports? therapist_id=2&patient_id=4	Returns an array of session reports for a particular patient and therapist
	Monthly reports per patient	/monthly_reports? therapist_id=2&patient_id=4	Returns an array of monthly reports for a particular patient and therapist
	Create session report per patient, edit requests	/add_session_report? therapist_id=2&patient_id=4	<ul style="list-style-type: none"> <li>• date, initial_assessment, session_summary, final_assessment, other_notes : string</li> </ul>
	Create monthly report per patient, edit requests	/add_monthly_report? therapist_id=2&patient_id=4	<ul style="list-style-type: none"> <li>• month, recep_base, recep_improv, recep_comm, alt_base, alt_improv, alt_comm, motor_base, motor_improv, motor_comm, self_base, self_improv, self_comm, behav_base,</li> </ul>

			behav_improv, behav_comm : string
	Activity Lists	/activity_lists? therapist_id=2&patient_id=4	Returns the activity list for a particular patient and therapist
	Create Activity List per patient, Edit requests	/add_activity_list? therapist_id=2&patient_id=4	<ul style="list-style-type: none"> <li>morning_activities, afternoon_activities, evening_activities: Arrays of strings</li> </ul>
	View Observation Reports	/observation_reports? therapist_id=2&patient_id=4	Return an array of all observation reports for a particular patient and therapist
Parent	Parent registration		<ul style="list-style-type: none"> <li>parent_id</li> <li>name, email, phone_no, gender: string</li> <li>password</li> <li>child_name, child_age, child_gender: string</li> </ul>
	View Profile	/profile?parent_id=2	As above & including : <ul style="list-style-type: none"> <li>therapists: Array of objects with {therapist_name, therapist_id, patient_id}</li> <li>img_url (not compulsory on registration) : string</li> </ul>
	All caregivers	/caregivers?parent_id=4	Returns an array of caregivers created by a particular parent
	Create Caregiver	/add_caregiver?parent_id=4	<ul style="list-style-type: none"> <li>caregiver_id</li> <li>name, email, phone_no, relationship: string</li> <li>child_name, child_age, child_gender: string</li> <li>therapists: Array of objects with {therapist_name, therapist_id, patient_id}</li> <li>img_url (not included here) : string</li> </ul>
	Observations Reports	/observation_reports? therapist_id=2&patient_id=4	Returns an array of all observation reports for a particular patient and therapist
	Create observation report	/add_observation_reports? therapist_id=2&patient_id=4	<ul style="list-style-type: none"> <li>date, title, summary, suggestions: string</li> </ul>
	View Activity List	/activity_lists? therapist_id=2&patient_id=4	Returns the activity list for a particular patient and therapist
	View Session Report	/session_reports? therapist_id=2&patient_id=4	Returns an array of session reports for a particular patient and therapist

	View Monthly Report	/monthly_reports?therapist_id=2&patient_id=4	Returns an array of monthly reports for a particular patient and therapist
Caregiver	View Profile	/profile?caregiver_id=2	As created by parent
	Observations Reports	/observation_reports?therapist_id=2&patient_id=4	Returns an array of all observation reports for a particular patient and therapist
	Create observation report	/add_observation_reports?therapist_id=2&patient_id=4	<ul style="list-style-type: none"> <li>date, title, summary, suggestions: string</li> </ul>
	View Activity List	/activity_lists?therapist_id=2&patient_id=4	Returns the activity list for a particular patient and therapist
	View Session Report	/session_reports?therapist_id=2&patient_id=4	Returns an array of session reports for a particular patient and therapist
	View Monthly Report	/monthly_reports?therapist_id=2&patient_id=4	Returns an array of monthly reports for a particular patient and therapist
Verification	parent is added by therapist as guardian		Should change parent_verified parameter to true, and add the therapist's id and etc to the therapists parameter in the parent profile as already highlighted in parent profile
	caregiver gets email of their account creation		Should add password
